# STORY

They were born with superhuman abilities, into a world that looks at them not as saviors, but as freaks. At Professor Xavier's School For Gifted Youngsters, however, the mutant team known as the X-Men continue to hone their mutant powers in the fight against the forces of destruction. Their quest is to prove that they have a place on Earth, that humans and mutants can co-exist peacefully on the planet they both call home.

Far above the Earth in an orbiting space station, Magneto, the Master of Magnetism, looks down and sees a very different picture! He believes that the only way he and other mutants can survive is by destroying the human race entirely. The orbiting citadel has been constructed by Magneto with a dual purpose. First and foremost, Avalon is a safe-haven for his dedicated legion of followers, the villainous mutants known as the Acolytes. It is here Magneto's forces plan their all out assault on earth. With advanced technologies and the combined mutant abilities of the Acolytes, Magneto plans to disrupt magnetic fields all across the planet. The results would be nothing less than total devastation.

The worldwide corruption of computer systems, complete shutdown of all power systems, the collapse of every nation's communication networks -- all resulting in the extinction of countless human lives. Magneto plans to usher in a new Dark Age for earth's non-mutant population.

Professor Charles Xavier has trained his X-Men to combat just this kind of mutant menace. But with the promise of a mutant-run planet, a frightening array of the X-Men's most formidable villains have allied themselves with the Master of Magnetism, and the mutant-hunting Sentinels scouring the planet with hopes of exterminating all mutants, even the uncanny X-Men may be doomed to defeat. History is about to change in the greatest battle mankind has ever seen.

# THE RULES OF THE GAME

how to play in the other modes.

### The Basics

- Each stage has 3 rounds. The fighter who wins two rounds wins the stage.
- Both fighters have a vitality gauge which starts with 99 points. When a fighter loses all of his or her vitality points, that fighter has been K.O.d and loses the round.
- If the time runs out before either fighter is K.O.d, the fighter with the most vitality wins that round.
- If there is no winner after 3 rounds, a final round begins. If there is still no winner, the match is considered a draw, and the Game Over screen appears.

## Starting Up

Press Start when the Title Screen appears to see the mode choices. To begin gameplay, highlight the Arcade Mode option and press Start again.

In the next screen, select your X-fighter and the game speed.

# WHAT IS X-POWER?

Once you use the Hyper-X power, the X-Power gauge will almost completely empty out, so don't waste it!
